

# **HINDS COMMUNITY COLLEGE RADIOLOGIC TECHNOLOGY**

## **MISSION STATEMENT**

The mission of the radiologic technology program is to provide students with an academic and clinical environment conducive to learning the skills necessary to become competent in medical communication, patient care procedures, radiographic procedures, imaging equipment, radiation protection, evaluation of radiographs, as well as to provide the necessary learning experiences that enable radiologic technology graduates to provide safe and competent care and become an effective member of the health care team.

## **STUDENT GOALS AND LEARNING OUTCOMES**

*Information compiled using revisions made in September 2019 Outcomes Assessment Committee Meeting*

1. Students will be clinically competent and develop the ability to function as a radiologic technologist.

Student Learning Outcomes:

- Students will demonstrate competency and safe practice of radiologic procedures.
- Students will demonstrate proper use of equipment.

2. Students will use critical thinking and problem-solving skills.

Student Learning Outcomes:

- Students will adapt technique for body size and pathology.
- Students will be able to perform well under pressure.

3. Students will communicate effectively in written, verbal and non-verbal communication.

Student Learning Outcomes:

- Students will be able to explain procedure and/or instructions to patient prior to and during exam.
- Students will be able to demonstrate effective written and oral communication skills.

4. Students will exhibit professionalism and quality patient care.

Student Learning Outcomes:

- Students will develop safe, competent patient care skills.
- Students will demonstrate professional behavior.
